About Buro

Every day, thousands of people choose Buro to support the way they work, learn, and live. With over 30 years of experience, we've perfected the art and science of ergonomic design—creating chairs and office furniture that enhance comfort, support, and productivity.

The Buro brand is a natural fit to lead our new furniture range. Recognised throughout Australasia — and increasingly around the world — Buro stands for trusted quality, enduring performance, and proven credibility in the commercial furniture market.

Now backed by the global strength of ACCO Brands, Buro's furniture proposition combines world-class design, robust purchasing and logistics capabilities, and a powerful marketing reach. This partnership delivers a compelling and highly competitive offering for both our customers and consumers.

Together, Buro and ACCO Brands provide a single, seamless source for everything the modern workplace needs.

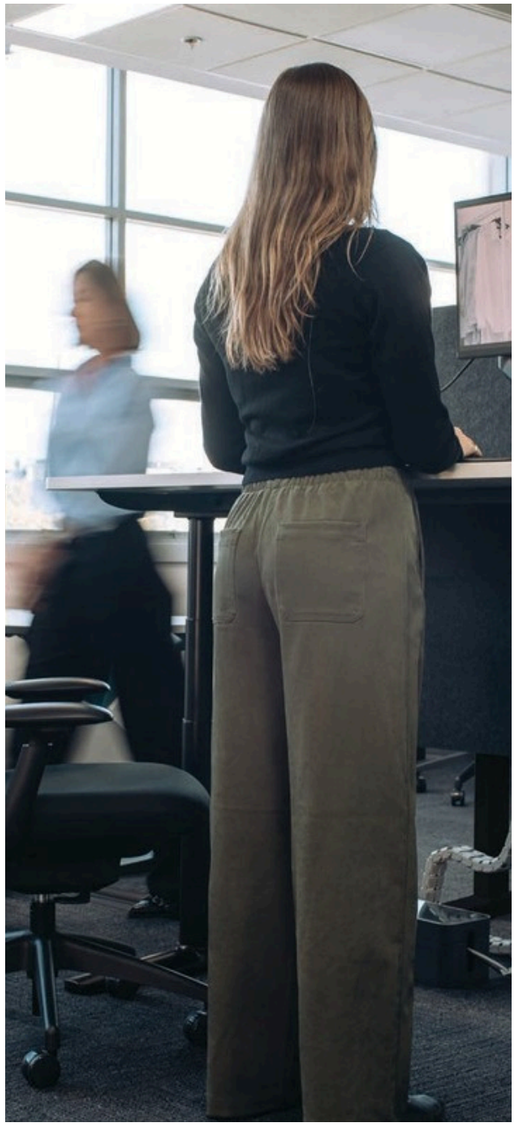

Our Furniture Range

We are excited to expand our offering to include everything you need for an ergonomically healthy workspace.

Buro Syntra height-adjustable desks, with Healthy Spine Mode, feature a quiet motor and a height range suitable for most users.

Buro MyWorkSpace series is a range of steel-leg component furniture and accessories. Products include U Leg and A Frame desks in various sizes (with and without castors), as well as high tables with castors, and mobile pedestals to complement contemporary workspaces.

Our new furniture range is complemented by best-in-class **Kensington** ergonomic accessories, **Floortex** chair mats and **Quartet** whiteboards from the ACCO Brands stable.

Ergonomic Excellence

We believe great design starts with how it makes you feel. That's why our furniture is built around ergonomic principles that support your comfort, health, and wellbeing every day. Every detail is considered to enable natural movement and support better posture, helping people across Australia create healthier, more productive workspaces.

Many of the products in our range are endorsed by the Australian Physiotherapy Association and by independent Ergonomists.

Optimise your workspace with our 5 quick tips:

1. Set your chair height first
Lower the seat so your feet rest flat on the floor (or a footrest), knees at right angles, with a 2-3cm finger gap behind your knees.

2. Set your back support
Recline the backrest slightly (10–20°), ensure your whole spine is supported, shoulders are relaxed, and arms fall comfortably beside your body.

3. Position your monitor at eye level
Place the top of the screen at eye height, centred in front of you, about an arm's length away.

4. Keep your work zone centred
Align keyboard, mouse, and document holder directly in front of you to avoid twisting — with forearms roughly horizontal.

5. Check the quick posture trio
Feet grounded, lumbar supported, and elbows relaxed — then you're good to go. Change your posture from sitting to standing often.

Download a copy of our Complete Workstation Setup Guide for optimal working ergonomics.

Health & Wellbeing

How to design a healthier workday:

At Buro, we're here to help people work well and live better – helping everybody create optimal workspaces for health and wellbeing.

Top tips from Dave Hall, Occupational Physiotherapist

1. Start your day with movement
Begin with a walk, stretch, or quick exercise burst — it wakes up your body and sharpens your focus.

2. Set up a workspace that supports activity
Create a workstation that encourages shifting posture, with room to move, fresh air, and natural light to keep you alert.

3. Match your tasks to your energy
Do high focus work when you're naturally sharpest, and save lighter, collaborative or creative tasks for lower energy times.

4. Make wellbeing a team habit
Healthy routines stick when shared. Stand in meetings, take walking chats, and encourage collective movement moments.

5. Build movement into team rituals
Use the first minutes of meetings for simple stretches or light exercises — it boosts mood, energy, and team connection.

*Bonus (if space allows): Get outside daily.
Even a short dose of daylight and fresh air lifts your mood, eases eye strain, and recharges your energy.

SmartFit® Space-Saving Dual Monitor Arm

Product Code
K55513WW

Kensington Range

Kensington

Pro Fit™ Ergo KB680 EQ Rechargeable Keyboard

Kensington

Product Code
K72485NA

Features

- A full-size split layout with an integrated wrist pad and front-positioned tilt legs promotes proper wrist alignment and may help minimise strain during prolonged use.
- Tailor your keyboard to optimise your workflow with 14 programmable keys and a dedicated Copilot AI key*. Quickly access macros and key commands to support effortless multitasking. *Windows only.
- The keyboard's outer case and keycaps contain 37% post-consumer recycled (PCR) content and it is shipped in FSC® certified packaging. *Excludes PCB assembly, rechargeable battery, 2.4GHz dongle, and charging cable.
- Supports up to 4 months of use on a single charge* and recharges easily via USB-C®. Includes USB-A to USB-C® charging cable. *Battery life may vary based on usage.
- Pairs with up to three devices using dual Bluetooth® and a 2.4GHz USB-A nano receiver secured with government-grade AES 128-bit encryption. Windows and macOS compatible.
- Features Swift Pair for faster, hassle-free Bluetooth® connections with compatible Windows devices.
- Low-friction keys deliver a seamless and quiet typing experience to help reduce fatigue.
- Lights for Num Lock, Caps Lock, Scroll Lock, battery status, and device pairing provide instant visibility into your keyboard's current settings.
- Backed by Kensington's professional support and a 3-year limited warranty.

Pro Fit™ Ergo MY630 EQ Rechargeable Mouse

Kensington

Product Code
K72484WW

Features

- Contoured natural slope keeps the wrist in a neutral handshake position to support all-day ergonomic comfort and productivity
- Full-size vertical design offers enhanced precision and control and comfortably supports larger hands.
- Certified recycled content that conforms to SCS Recycled Content Standard V8-0 for a minimum 57% post-consumer recycled content of the total plastic components. Excludes PCB assembly, rechargeable battery and charging cable.
- Connect up to three active devices—two via Bluetooth® Low Energy (LE) and one using the included 2.4GHz USB-A receiver. Includes built-in dongle storage. Windows, macOS, and Chrome OS compatible.
- Delivers up to 4 months of battery life when connected via Bluetooth® and up to 1 month when connected via 2.4GHz dongle*. Includes 500mAh rechargeable battery and USB-C® charging cable. *Battery life varies by use case.
- Left, right, forward, back, and scroll/middle-click buttons enhance navigation and productivity. Silent switches support a quiet work environment, and a DPI switch (1000/1600/2400) allows you to adjust your cursor precision and sensitivity quickly.
- Personalize MY630's 5-programmable buttons with free KensingtonWorks™ software to deliver enhanced productivity and convenience (Windows and macOS only). *Windows ARM-based computers are currently not supported. Please check back for future updates on compatibility.
- 2.4GHz USB-A receiver provides 128-bit AES government-grade encryption security.
- Rest assured knowing you're covered by Kensington with professional support and a 3-year limited warranty.

ErgoSoft™ Wrist Rest Mouse Pad

Kensington

Product Code
55888

Features

- The premium ultra-soft exterior is supported by gel-cushioned padding to provide unmatched quality and comfort. Offering the softest and highest quality materials available, the wrist rest will not stick to your skin and easily wipes clean.
- Provides best-in-class tracking control for both optical and laser mice with the ideal balance between control and speed.
- Supports the optimal health, comfort and protection of your wrist through proper alignment, tailored dimensions and a unique curved design that minimises the impact of repetitive strain.
- Combines functional and sophisticated low-profile elegance with a preferred hard mouse surface, non-skid backing and an easy-to-clean surface. Durable and suited for daily use.
- Meets MIL-STD-810H Method 504.3 Contamination by Fluids testing for resistance to breakdown when exposed to cleaning and disinfecting solvents such as alcohol and bleach for at least 24 hours.

SmartFit™ EQ Adjustable Multi-Angle Laptop Stand

Kensington

Product Code
K50427NA

SmartFit™

Features

- Supports proper ergonomic eye-level viewing angles, as well as improved neck and shoulder alignment. Uses data-driven research and a colour-coded fitting chart to support quick and intuitive height-setting.
- Made from durable, high-quality plastic containing 75% post-consumer recycled content and shipped in FSC® certified packaging.
- Offers six pre-set height (up to 14.87in/378mm) and angle combinations to simplify positioning, support better posture, and reduce strain during long work sessions.
- Tested and recommended by the German IGR Institute for Health and Ergonomics, in accordance with DIN 26800 EN ISO 15537.
- Designed to enhance comfort and improve posture whether sitting or standing at your desk.
- Supports laptops and MacBooks ranging from 13" to 16", up to 6.6lbs (3kg). Anti-slip rubber feet and locking latches keep the laptop and riser securely in place while you work.
- This laptop riser occupies minimal desk space (9.96 x 10.16in/253 x 258mm), making it an ideal choice for small or compact workstations.
- No assembly required, quickly folds for easy storage, and offers dual levers for stable height adjustments.
- Raising your laptop helps keep it cooler and reduces strain on the battery and internal parts.
- Enjoy peace of mind knowing you are covered by Kensington with a 2-year limited warranty.

SmartFit™ Universal Organising Laptop Riser

Kensington

Product Code
K50826WW

SmartFit™

Features

- Takes the guesswork out of finding the most ergonomic height. Simply match your hand size to the colour on the provided chart, set the height to the corresponding level, and you're done.
- A fabric-covered pad conveniently and neatly houses a docking station, phone or other accessory (to ensure accessibility to all ports, a 90° port adapter may be necessary for some docking stations).
- Keeps your headset there when you need it, out of the way when you don't.
- Supports laptops up to 10kg (22lbs).
- Cable management for a tidy desktop.
- Assembly takes minutes, with all the tools you need included.
- Keeps the SmartFit™ Universal Organising Laptop Riser in place and prevents it from sliding around the desk.

SmartFit™ Space-Saving Single Monitor Arm

Kensington

Product Code
K55512WW

SmartFit™

Features

- Supports proper ergonomic eye-level viewing angles using data-driven research and a colour-coded fitting chart to support quick and intuitive height-setting.
- Knob allows you to quickly and easily adjust height (239-470mm), tilt and swivel (±10°), rotate to landscape or portrait orientation (±180°) and lock your monitor in place. Quick-release VESA® mount simplifies monitor installation.
- With SmartFit™, finding the right height for maximum comfort is as easy as 1-2-3. Simply match your hand size to the colour on the provided chart, set the height to your colour and you're done.
- Includes necessary tools and a pre-installed C-clamp that faces the front of the desk, making installation much simpler, especially in tight spaces (optional grommet fastener included). C-clamp fits desks up to 85mm (3.3") thick. Grommet mount fits desks up to 40mm (1.5") thick. Compatible with sit/stand desks.
- Sturdy, space-saving design complements a modern aesthetic while keeping your monitor steady and stable (supports monitors up to 32" and up to 8kg/17.6lbs.). Cable management system eliminates cable clutter for a cleaner desktop.
- In our ongoing effort to provide additional value to our customers, you may notice variations in SmartFit™ packaging and support materials. The updates are designed to make it easier to identify and use our SmartFit™ products. Rest assured, the quality standards that have made SmartFit™ a trusted choice for ergonomic accessories will remain unchanged.

SmartFit™ One-Touch Height Adjustable Single Monitor Arm

Kensington

Product Code
K59600WW

SmartFit™

Features

- SmartFit™ supports proper ergonomic eye-level viewing angles, as well as improved neck and shoulder alignment.
- The SmartFit™ One-Touch Height-Adjustable Single Monitor Arm makes adjusting your external monitor's height, depth and angle effortless. With 170 - 505mm (6.7 - 19.9") height adjustment, ±90° swivel and monitor rotation and ±90° tilt adjustment, the product's fully articulating design gives you total control over the placement of your monitor, from landscape to portrait mode.
- Counterbalance Tension Adjustment allows you to tighten or loosen the arm to accommodate a range of monitor weights with the same effortlessness and stability (Allen wrench included).
- The monitor arm is stable in any position, supporting a 13–'34 'flat or curved monitor weighing up to 9kg (19.8lbs).
- The monitor arm is mountable by c-clamp (desktop thickness range: 10–85mm or grommet (desktop thickness range: or 10–80mm; grommet hole diameter range: 10.5–50mm – tool kit included. Its non-permanent, non-marking installation makes removal easy. An included quick-release, detachable VESA 75/100 plate makes the arm ideal for VESA mountable monitors.
- The monitor arm's built-in cable management system keeps cables out of sight and organised, held within the arm itself.
- Tested to meet ANSI/BIFMA performance and safety standards.
- In our ongoing effort to provide additional value to our customers, you may notice variations in SmartFit™ packaging and support materials. The updates are designed to make it easier to identify and use our SmartFit™ products. Rest assured, the quality standards that have made SmartFit™ a trusted choice for ergonomic accessories will remain unchanged.

SmartFit™ One-Touch Height-Adjustable Dual Monitor Arm

Kensington

Product Code
K59601WW

SmartFit™

Features

- Supports proper ergonomic eye-level viewing angles using data-driven research and a colour-coded fitting chart to support quick and intuitive height-setting.
- Enjoy effortless adjustment of each external monitor's height, depth and angle. With 170 -505 mm) height adjustment, ±90° swivel and monitor rotation and ±90° tilt adjustment, the One-Touch fully articulating gas spring monitor mount gives you total control over the placement of your dual monitors, from landscape to portrait mode and side-by-side to vertically stacked.
- Its counterbalance tension adjustment allows you to 'tighten' or 'loosen' each arm to accommodate a range of monitor weights with the same effortlessness and stability (Allen key included).
- The monitor arm is stable in every position, supporting a 13–'34 'flat or curved monitors weighing up to 9kg (19.8lbs).
- Mountable by C-clamp (desktop thickness range: 10–85mm or grommet hole (desktop thickness range: 10–80mm; diameter range: 10.5mm–50mm), installation is non-permanent and non-marking, making removal easy – tool kit included. An included quick-release, detachable VESA 75/100 plate makes the fully articulating dual arm ideal for VESA mountable monitors.
- The product's cable management system organises and conceals cables while the arms lift your dual monitors up and out of the way, decluttering and clearing valuable desk space at once.
- Tested to meet ANSI/BIFMA standards. Trust in the dependability of a heavy duty monitor arm and enjoy stability and effortless adjustment for years to come.
- In our ongoing effort to provide additional value to our customers, you may notice variations in SmartFit™ packaging and support materials. The updates are designed to make it easier to identify and use our SmartFit™ products. Rest assured, the quality standards that have made SmartFit™ a trusted choice for ergonomic accessories will remain unchanged.
